

Have you all completely lost your minds? People cannot sing and worship God? Really? Restaurants can still operate with kitchen staff raising their voices across the food prep tables; grocery stores, building supply houses, etc. But you single out places of worship?

Do you really believe that the Mendocino County Board of Supervisors has authority over the Bill of Rights, the United States Constitution, the California Constitution, the FIRST AMENDMENT??? This is not a dictatorship. It's a democratic republic. You really don't have the power. The people do. And you're going to find out what that power can do at the next election.

Let me offer you one promise and one warning. I will be worshiping with other believers in song, music and words of encouragement every Sunday. That's the promise. Here's the warning: if I am arrested you will see me in court, where YOU will be the defendant.

Sincerely,

Jerry Lawson
