

Hello -

This has been incredibly stressful on all of us. My business is suffering and I have ongoing expenses. Like many I suppose, I am eager to get back to life as "normal."

However, I think this County is doing so well because of the SiP order. If you look at the 1918 flu, cities that released SiP order early suffered greatly. I feel that if we release SiP prematurely, all this effort of the past month will have been for naught.

I urge you to keep stringent guidelines in place until we are sure the path is clear. Once we are there, I also encourage a stepped approach: the continued use of masks, separation within restaurants, minimal gatherings, etc.

Thanks for all your hard work.

Scott Roat
