

To Whom it May Concern,

I am very confused looking at the proposal of the phases our county may steer toward. It has no rhyme or reason.

With yellow, we would be allowed a stylist to go from home to home rather than stay in their sanitized salon, in county tourism to bring their possible poor health with them to hotels or rentals for the next visitor to be compromised and students and teachers to gather yet...still have no dog grooming services, minimal dining, minimal gathering.

Makes no sense, if we are trying to limit the spread of a virus and slowly work to improve the economic devastation to the county.

I am hopeful there will be much more thought put into this.

Thank you,

Leah Mendoza
