

We understand the covid concerns are huge with some residents. As a non resident I can respect that and keep my social distance and limit the amount of time I'm in public.

The way this year has gone we need CAMPING and outdoor rec more then ever to resume. Peoples mental health cant be cleansed by a few days outdoors.

I love the north coast and cant wait to bring my family to enjoy it please open camping soon.

How long can these small towns that rely on tourism stay afloat. Its already hard enough I'm sure.
