

Please allow adequate funding to the fire safety and prevention Baird. \$25,000 is not enough. Our property taxes have been paid and they are, as you know, very high. What do you use our property tax money for? Surely there is enough to find fire 🔥 safety and fire 🔥 prevention. Thank you for reconsidering your recent decision to cut the funding to the board from \$100,000 all the way down to \$25,000
