

Dear Supervisors,

Am I missing something?
I thought we were worried
about fire safety in 2020 and
probably for the foreseeable future.

I strongly disagree with cutting
the budget for Mendocino County FSC.
Experience and logic agree:
funds spent on organization,
education and prevention are
prudent investments.

I want my tax dollars spent on FSC.
Otherwise, we will probably spend far more
on fire damage that could
have been prevented.
