

To the Board of supervisors

Please do not cut funding to fire safe. As a home owner in Mendocino since 1976 I have had my Homeowners Insurance raised to 16K a year which I am unable to afford. Being without insurance this fire season I Have to rely on my own fire suppression actions and that of those around me. The Homeowners insurance situation in California and Mendocino has become impossible and the Fire Safe Council is all that is available to help us help us protect our homes. Soon no one will be able to purchase homes in this area due to lack of homeowners insurance. Please keep Fire Safe Council funding as is.

Thank you

Sincerely
Julie Harris
