

Supervisors,

I feel it is very important for Mendocino County to continue to support the Mendocino County Fire Safe Council. The benefit of the awareness of wildfire preparedness and the support the MCFSC provides to our citizens to complete community projects greatly helps Mendocino County. Keeping the damage of wildfires at a minimum helps maintain property tax funding for our county. Lost tax revenue (Tomki) costs more than the funding for a wildfire prevention program. Please help us make Mendocino County safe from fire. Please continue to help support the Mendocino County Fire Safe Council.

Thank you,
Will Carson
