

To whom It May Concern:

As you move forward in your budget planning my understanding is that the proposed budget for this coming season will be approximately \$25,000 down from \$100,000 budgeted for this past year. It would behoove you to search deep within your funding to provide the fire safe council with a working budget of \$50,000 to adequately address the needs of of the community within the eastern hills.

Sincerely,

Gerardo Garcia
