

To the BOS,

It has come to my attention that you are considering a major funding cut to the Mendocino County Fire Safe Council. I realize in these difficult and unprecedented times that budget cuts are necessary, but fire season is approaching and MCFSC is doing important work to keep our county as fire-safe and fire-ready as possible. Please consider a smaller cut (10%? 20%?), instead of the drastic reduction you are proposing. It could literally save lives. Thank you,

Elizabeth Hart
