Dear Ms. Angelo and Mr. Curtis,

On behalf of the Mendocino Coast Chamber of Commerce, I'm writing to let you know that we support the Mendocino WineGrowers, Inc.'s request that the County remove one sentence from the COVID-19 Reopening Business Self Certification. We appreciate their efforts in obtaining legal counsel regarding this issue and leading the way towards this request for revision.

Our organization has received numerous concerns regarding the language of the liability clause which all businesses must agree upon prior to reopening. This change would go far in building further confidence in the process we are working as a team to recommend.

Additionally, we feel that they should be allowed to sign a revised version that eliminates the problematic language.

We support our businesses and the economic resilience of our communities. It is our strong belief that your team consider our request.

Please contact me with any questions.

Best regards,

Sharon Davis
Chief Executive Officer
Mendocino Coast Chamber of Commerce
