

Now that we are in the middle of a surge, can we please get some help here? The tourist hoards are back and they clearly don't give a damn about wearing masks when they visit the Coast. Most of us here in the Fort Bragg-Mendocino area would sincerely appreciate living a bit longer, and thus we beg you, the County Supervisors, to insist on mask enforcement - even if the Sheriff doesn't seem to think it's their duty to do so. There have been near-fights breaking out over folks being demanded they put their masks on in ALL public places, and sooner or later there's going to be someone getting hurt.

Please, do your job, and make law enforcement actually do theirs.
