TO: Mendocino Board Of Supervisors

RE: Maxwell – MHRB Permit #2016-0018

REQUEST: Deny Appeal

The Mendocino Historical Review Board has spent considerable time reviewing the Maxwell application. They have provided the applicant with detailed criteria which would bring the project into conformance with approved guidelines. The applicant has ignored these guidelines and is now seeking to bypass the MHRB by appealing to the County.

The MHRB exists for a reason. There are specific criteria and procedures to be followed.

Please support the MHRB in their efforts to preserve and protect the unique historical nature of our community – and decline the Maxwell appeal.
