

Dear Supervisors-

Please note my support the renewal of the wildlife services program here in Mendocino County. As a 5th generation rancher and part of a family that has been in Mendocino County since 1890, I cannot stress the importance of their services. It is important for these professionals to have both lethal and non-lethal means of wildlife control at their disposal.

If you have any questions, please don't hesitate to ask.

Thank you

Peter Bauer
