

Dear chairman Haschak and members of the board,

As rural landowners who raise livestock in the 5th district we support the renewal of the Wildlife Services Contract. While non-lethal options are the preferred option in most cases there are instances where the application of lethal methods should also be kept as an option. wildlife services has the personnel, expertise and equipment to provide these services.

Please support item 5H on Tuesdays agenda.

Thank you for the opportunity to provide public comment.

William and Jennifer Reed
