

Agenda Item 4b (S. 3288): As a resident of Mendocino County, I support S. 3288, which will protect wild places on our public lands for present and future generations. This bill will increase opportunities for outdoor recreation, boost tourism, protect fish and wildlife habitat, remediate illegal marijuana grows on public lands, and help restore our public forests. Please approve this letter of support for S. 3288, which will protect our public lands in northwest California. As a resident of Mendocino County I have hiked the hills in the Mendocino National Forest Wilderness area for over 20 years and would be so grateful to see them protected. Thank you
