

Please support a fire abatement ordinance to require property owners to fire safe their property.

Even though I have spent thousands of dollars removing grass, trees and shrubs, AAA dropped my fire policy, and for everyone in my area.

I have many close neighbors whose properties have thick brush and dead trees which they do nothing about. Some even allow tall grass to remain all summer all the way to the county road. The county should enforce a law to prevent this hazard to the whole community.

Also, Pine Mt. has only one exit road in case of a forest fire. This is life threatening! This should be considered for as well.

Thank you,

Carolyn Wadman (38 year resident of Pine Mountain Estates)
