

To whom it may concern:

My neighbor on Highland Avenue has let his trees grow in an uninhibited manner. He has done nothing to extract dead limbs or foliage. Many of his trees grow over my roofline which worries me about strong winds or fire. I had a crew out to cut the limbs back to the property line, but he threatened them and said that he would call the police. He does not take care of the grasses on his property.

Please tell me what I can do to keep my property safe, even if he doesn't!!!

Thank You,
BarbaraEBlake
