

As a Brooktrails resident for the last 19 years, we have kept our property hardened as much as possible. Although we have been able to do this, others have not

As you drive throughout Brooktrails, there are many dead trees, branches, logs, and year's leaves on the ground, and many trees not trimmed to 10 foot up from the ground. Some of this is vacant lots and others are homes.

Having removal of brush and trees is no easy task nor is it inexpensive. But the immense danger of not doing this is unacceptable. Our county is low income and we would hope that there would be some kind of assistance for those who cannot afford to hire someone or do it themselves.

We sincerely hope that you take this matter seriously as lives depend on it.

Thank you, Tom & Anita Furia
