

Dear Board of Supervisors,

I am writing to express my support of keeping our Mendocino County Cannabis Cultivation Ordinance and not replacing it with Use Permits Process overseen by Planning and Building staff.

I support keeping our open space and rangelands and not expanding our industrial and commercial zones to benefit industrial marijuana business.

I support enlarging and strengthening our Code Enforcement.

I supported Measure AF in 2016 where we the voters defeated the idea of cannabis cultivation in every zone.

I support protecting our fisheries, our wild life, our wild lands and enforcing the laws that are already on the books. I support law enforcement enforcing the laws that we already have with added officers and equipment.

I support staying with our existing cannabis ordinance and our existing cannabis zones.

Sincerely yours,

Madelyn McCauley
