

Please consider voting yes on this item. I have lived in Brooktrails for 29 years and two lots on each side of me are owned by vacant owners. I keep our property clear of high grass and dead trees. However, if my neighbors doesn't clear the combustible fuel on their side, my house is in danger.

Please pass this item so we can reduce the fuel load and put some responsibility on the people that do not clean up their place.

This would help pay for the clean up and/ or give incentive for the owner to come see what they need to do.

Sincerely, Debi Vau.
