

We, David and Sharon Butler having lived here at [REDACTED] Fracchia Road since 1975 have seen quite a few families raise their kids here. We urge you as our representatives for our community not to let this vineyard turn into a commercial cannabis grow with a bunch of hoop tents covering the area. As, we are sure you would not like to look at it everyday in your backyard. It is a very peaceful neighborhood and we would not like to have all the trouble that the commercial grow would bring with it.

Thank You, David and Sharon Butler
