

Hello,

I am writing to implore that you do the right thing. The cannabis industry is the backbone of this county, now more than ever! WE as farmers have gone over and above, not to mention the obscene amount of money spent and hoops we've had to jump through and now you're just going to say oh well we can't finish.

Absolutely unacceptable! You all have jobs because of the farms in our county.

It is your duty to follow through with what you promised, legal farms!!

Listen to MCA, they are actually farmers that know what it will take.

Do the right thing

Suzanne Maierle
