

Dear Supervisors

It has been now three years since my cultivation application was approved and I received the embossed document allowing me to legally cultivate. I am still waiting for an approved permit despite passing an inspection over a year ago. This level of dysfunction in the cannabis program is UNACCEPTABLE to me, and I hope to you as well. Although I believe you folks have made a good faith effort the ag department and later Planning and Building have FAILED in their task and that is ultimately YOUR responsibility. To correct this huge economic and moral problem I endorse the following efforts:

- 1) Form a new Ad Hoc to address CDFA and CDFW compliance for Phase 1 and Phase 2 current permittees/applicants. The Ad Hoc must be comprised of Supervisors whose tenure will extend beyond January 2021.
- 2) Demand staff focus on protection of current permittees/applicants over the development of any new local land use permit based cultivation regulations.
- 3) Support and endorse the MCA memo submitted for the 8-4 meeting.

Thank you,

Charles Sargenti
