Mendocino County Board of Supervisors:

I am writing this letter today to express some thoughts and concerns about the closure of so many business in Ukiah and Mendocino county.

Very few small business have the cash reserves to close a couple of weeks. How are we expected to close for months or how many months will this last. All the small business I know work very hard. There are no easy ways to own a business in Mendocino County. The doors are shuttered , but the bills still go on, both at home and the business. In my neighborhood bar I am spending over \$300 a day for fixed expenses. I can't not pay the landlord he makes payments also. Certain expenses are more costly to shut down and then reinstate than to keep paying. Will we have any of our 8 employees return to work? Everyone is figuring out how they might survive.

I appeal to you to get aggressive about allowing business to open and follow all the guidelines that have been set out by the state. Don't look at every business being like every other like business in the state. In our situation we have 6000 square feet we can social distance, separate entrance and exit etc. don't put us in the same category as a 800 square foot bar in San Francisco.

Respectfully,
