

- Mendocino County Board of Supervisors my name is Que B. Anthnoy (Pronounced Anthony) and I have been a member of this community for the last 7 years. First as a unhoused individual and now currently as a house in the individual.

I am an activist for this community as well as their lgbtq community and African American community! It is my duty of a member of this community it to bring up for the dire need and implementation of certain actions necessary in our community. You see as a Care Management researcher and advisor I have noticed with some lacking or overly enforced procedures and measures that have been directed to the unhoused in our community.

One of the things that I've noticed that is in dire need and truly underutilized is sanctioned campsites while our providers who services for the unhouse find or build housing for all in our community. But it is also with great concern with the current crisis is in our nation and world that if certain measures like abolishing the camping ordinance as well it may be in a gray dire that will have a rush of more people being unhoused than we currently do. And with the current status oh are camping ordinance not only here but across the country people who have never found themselves in these situations have now also found themselves to become criminals just because they are unhoused.
