

It is infuriating that you are purchasing a motel for an extremely inflated price to house homeless people who clearly migrate here because of all the handouts you give them. There is no way a population of 80,000 could have so many LOCAL homeless people to warrant a purchase like that. You are inviting in transplants who know they can feed off of our community just as all of your previous purchases and actions have done. You have not helped the problem you have escalated it. How can you not see that throwing money at the situation is hindering our community not helping it. Our streets are filthy our businesses are being burned and vandalized and you just want to keep inviting more in. Shame on you. That motel is not worth 9 million dollars so it leaves the community to ask what is really going on here? Who is really profiting from this purchase? And where is the money coming from to keep this facility going? Governor Newsom doesn't care about this community. He doesn't live here and I am beginning to wonder if any of you do either. Do you see what's happening? Do you care about any citizen in this community that isn't looking for a handout?

Meanwhile you keep a stranglehold on all the other citizens of this community in the name of Covid-19. Again, SHAME ON YOU. There is no justification for the 6 months of this shutdown that was supposed to be 2 weeks. The positive numbers haven't changed with the implementation of masks which clearly shows they do nothing. You cannot run and hide from a virus. You should not be taking away our liberties because of one either. This is not Newsom alone. This is you!!! You sitting by while other counties are fighting his restrictions. You doing absolutely nothing in the name of the almighty dollar. How you go home and look in the mirror and live with what you are doing to this community I will never understand. You are killing this community with every decision you make and at some point you are no longer going to be able to pretend that you aren't.

Hoping everyday for our community and that the wrongs will be righted.

Jennifer Young
