

Dear staff and Board of Supervisors,

Some members of the public might write or verbally make public comment based on a a brief issue list and a 1-10 recommendation list of MCA's. That list was sent out separately from our detailed memos that we have submitted for public comment on both agenda items 3a and 3b. While our memos were also available to public commenters, we thought that having a bullet list of MCA issues and recommendations might be helpful.

We encourage you to review our memos which are more comprehensive, but we wanted to offer the key issues and 1-10 recommendation document for your reference and for the public record for the 10/13/20 Special BoS meeting.
Thank you.

Hannah
