

Mendocino County Board of Supervisors  
501 Low Gap Rd, Room 1010  
Ukiah, Ca 95482

Owner: Nixon

Applicant: AT&T

Dear Supervisors,

The following residents of The Pine Mountain Subdivision and affected surrounding area, fully support the proposed wireless communication tower to be located on 20201 Manzanita Drive, Willits, Ca.

Residents in this rural, high fire danger area currently have limited, marginal Cellular and internet service and many none at all. Many have discontinued use of land lines due to poor reliability of the service. Satellite Internet is costly and very slow during periods of high demand. It is not adequate for our students and those needing the internet to work from home. We need the service AS SOON AS POSSIBLE! We need this for our safety during emergencies and fires.

The proposed tower is to be centrally located on 65 acres which we believe to be to least intrusive and still provide the best coverage for our area.

Thank you in advance for your consideration of this very important project.
