

To the Mendocino County Board of Supervisors,

I'm appealing to you to deny case U\_2019-0011 cell tower. Unfortunately my property borders the Nixon property, the site of the proposed cell tower. I don't want to see an unsightly Tower and to suffer a loss of the value of my property. Several of the notices of a public hearing were deemed illegal. Without permits AT&T proceeded to build infrastructure for the tower. Nobody from the planning department has ever attempted to personally speak with me. Hopefully I don't have to file several complaints with the Grand Jury. Trusting the board will study the perceived unhealthy relationship the planning department has with AT&T.

John Gomez
