

Subject: Public Comment Case U-2019-0011

Date: 10-10-2020

From: Frances Grasse

To: Mendocino County Board of Supervisors

Dear Members of the Board,

This is attempt to explain the effects of the proposed wireless communication tower on my home and life in Mendocino County.

Please imagine living in a small house on a small piece of property in a quiet neighborhood a short distance from the town of Willits. The house is on a rocky slope with a view from almost every window of the beautiful hills and valleys to the southeast. This view can be enjoyed day and night from most rooms and also from the front porch and rear deck.

Now, imagine how it would feel to hear that a huge for-profit corporation has decided to get larger and richer by erecting a very tall, obtrusive structure right in the line of sight of all those windows, only 2 properties away.

If this massive construction project is built, the effect on my life will be the decision to sell my much-loved home for whatever reduced price it will bring. I can't imagine living with such a clear view that our county values corporations more than the people who have lived and worked here for decades.

Sincerely,
Frances A. Grasse
