

To whom it may concern,

My wife and I live here on Pine Mountain in Willits for the last three years and have been coming here often to be with my brother Over the past 20 years. We are absolutely in love with this mountain and all of the surrounding areas. We find it very disturbing to consider having a large cell tower anywhere near our Pristine beautiful mountain home, Especially considering that we get perfect cell service from Verizon and adequate Internet through Viasat. As residence we have never been adequately asked or interviewed to see if this is something we want in our neighborhood and everyone I know in this neighborhood is absolutely against it. Please we ask you to do everything in your power to stop the construction of the cell Tower on Pine Mountain.

Sincere gratitude,

Daniel Meyers and Zivile Zakaraite
