

To the Board of Supervisors,

We are urging you to decline the cell tower proposal in the Pine Mountain area, Use Permit #U\_2019-0011 (Nixon).

Satellite technology is far superior and safer to cell towers and will deem them obsolete very soon, if not already.

Cell towers should not be placed in neighborhoods without full consent of ALL surrounding neighbors...no exceptions!

There is lots of country out there that is not putting tax payers in harms way. Think about it and do the right thing for your people.

Thank you for your time,

David and Linda Beebe
