

To whom it may concern,

My name is Tiffany Klee and I have been a Pine Mountain resident for almost 8 years now. I have three kids and a husband in which we have our own business together. Our kids are currently on distance learning so internet service as well as cell service are more important than ever. We have to have a land-line as our cell service is minimal even with having a cell booster. My kids can't always do their distance learning due to the fact our internet doesn't always connect because of poor service. I work for the school district and know we have many families up here and their kid's education is affected daily due to poor internet service. Some students even have to go to other areas to be able to do their work. I also worry not only about our children's lack of education due to poor internet service but I also worry about the families that only have a cell phone and aren't able to call out in case of an emergency situation. I know there are many people opposed to this tower that don't even live anywhere near it. I will be one of the residents that's actually somewhat close to it. I feel this is something that should of went in long ago. I feel it's a huge safety factor not to mention the struggle for families during distance learning and depending on good internet service. My husband and I run a business out of our home and having limited cell service makes it a struggle daily to schedule appointments and plan for jobs. I have followed up on citizens responses with an opened mind as to why they feel the tower should not go in. All I can say is there are far more reasons for the tower to go in and with far better reasoning. The biggest one, being safety. I feel safety and the education of our children are two of the most important factors. Also not to mention from a business owner running a business with poor internet and cell service makes it extremely hard. I don't mind talking further about my facts and opinions on this matter if need be. Please feel free to reach out to me.

Thank you,

Tiffan Klee
