

To the BOS,

>

> As a rate payer to Waste Management, I strongly object to their proposal to retroactively charge for the past two years. I don't think any small business without a county contract would ever even propose such an idea, much less get away with it.

>

> I think the end result will be many people discontinuing their trash service and simply dumping their trash in the woods, which of course ends up costing the county money.

>

> Please vote to deny the retroactive rate increase.

>

> Susan Munson.
