

Dear Members of the Planning Commission and Board of Supervisors,
As we have seen in other areas, cannabis growing brings with it an element of criminality. Our family lives on West Road and we do not want to add the certainty of higher crimes, noise from fans, and the odor which this proposed rezoning would provide.

The August 29, 2020 incident on Laughlin Way in Redwood Valley is a prime example of the element which is treacherous to family life and specifically the welfare of our children.

We respectfully request the application for permits to allow the rezoning to facilitate cannabis production in residential area be denied.

Sincerely,

Cynthia Livingston
