

October 8th, 2020

To: Board of Directors, Redwood Coast Fire Protection District

Please accept this letter as my statement of interest in joining the Redwood Coast Fire Protection District board. I respect the RCFPD for all they do within our community and welcome the chance to join in serving our community in the capacity of board member. I hope to contribute my knowledge and experience to aid in the operation of the district. I am a resident of the District, and a registered voter.

I have spent over 40 years in the forestry and logging field. I have worked for several companies but spent many years with Mendocino Redwood Company in their forestry division and currently work for Conrad Forest Products in log procurement. Having grown up in this geographic area, I am very familiar with the landscape and timberland of the Redwood Coast Fire Protection District which I think could aid in the mission of RCFPD.

Thank you for your consideration. Please feel free to contact me if you have any questions.

Sincerely,

/S/

Stuart Titus
