**PROVIDE THE FOLLOWING DETAILED INFORMATION FOR PROJECTS ANTICIPATED WITHIN 1-2 YEARS**

**Detail Project Description (Square/Lineal Footage or Length/Width)**

1) The project is the reconstruction of the parallel Taxiway A (3,575' x 35'), taxiway connectors, and the south (3,200 SY) tie-down apron pavements by mill and overlay on north AC taxiway and reconstructing the south AC taxiway and south AC tie-down apron. The parallel taxiway pavement width will be reduced from 50 feet wide to 35 feet wide. The center connector pavement will remain at 50 feet wide. The rehabilitation will include construction of new aggregate base shoulders along Taxiway A and installation of taxiway retroreflector edge markers. The area of pavement being rehabilitated totals 28,450 square yards. South Taxiway A will be bid as the Base Bid, the connectors and north Taxiway A will be bid as alternate bids.

**Airport Code: GA Local**  
**NPR Code: RC,TW,IM**  
**NPR Rating: 74**  
**PCI: 25-40**

**Project Schedule (Anticipated date for bids or negotiated prices, consultant selection for planning or environmental projects, length of construction or design, planning or environmental process)**

1) Taxiway A Reconstruction: design complete, bid February 2022, construction May 2022.

**NEPA Environmental Status (Date of FONSI or submit CATEX Form for Approval)**

1) Submit updated CatEx by October 2021.

PROVIDE THE FOLLOWING DETAILED INFORMATION FOR PROJECTS ANTICIPATED WITHIN 1-2 YEARS	
Detail Project Description (Square/Lineal Footage or Length/Width)	
<p>1) Design for rehabilitation of the runway (58,400 square yards) and the runway shoulders (27,900 square yards) to prolong the life of the existing runway pavement. The project will include a mill and fill of the top 1-inch of existing AC pavement, crack sealing and then placement of a 3-inch layer of new AC. The project will also include displacing the threshold of Runway 29 to the ultimate location shown on the current ALP, and installation of the displaced threshold lights.</p> <p>2) ALP update with narrative report to address increased hangar development areas and airport geometry. An AGIS survey will be completed to support the RNAV (GPS) Rwy 29 lower approach minimums for the displaced threshold and filed with the FAA AGIS Flight Procedures to publish updated information. Need to remove 20:1 visual penetrations as requested by the AreaNav Program Specialist with Western Flight Procedures Team, Operations Support Group.</p>
