re: Agenda November 17
Item 5f Mendocino Coast

Healthcare

District

Dear Chairman Haschak and Members,

Please accept my application for appointment to the Mendocino Coast
Healthcare

District. I have served on the Board of Directors since October. Since
that time

I have been asked to work with the Chair to find and interview legal council,
and

served on an ad hoc subcommittee seeking a website designer. Many
challenges face the Healthcare District Board, drafting a Mission
Statement, amending our

Bylaws and meeting the requirements of the State for either a re-build or
replacement of our hospital are on our agenda for 2021, while at the same
time

we address those goals to best serve the residents and visitors in the
District.

I've attached a copy of the focused resume' I shared with the Board in
September. In closing I want you to know that I believe health care is a
primary component of a growing community and its economy. I hope our
goals will include an OB-GYN
in our hospital or a birthing center.

May I ask you to again favorably consider me for appointment to the District.

Respectfully,

/s/ Norman L. de Vall
