Applicant for Vacancy on
Mendocino Coast Health Care District
Board of Directors

I believe that my 50 years of experience on Boards and Committees of government agencies, trade associations, nonprofit foundations, and businesses gives me the best understanding and knowledge for serving the citizens of the Mendocino Coast Health Care District. Especially, after serving a decade on the Mendocino Coast Hospital Foundation Board of Directors and, or about the same time, the former Mendocino Coast District Hospital Management's Citizens' Advisory Committee.

Please let me explain.

I have served on the following:

Acknowledgments, Awards and Commendations:

I am pleased that these endeavors have been recognized by awards and commendations from various community institutions and organizations for the last fifty years. They are:

The Public Affairs Leader Fellowship, The Coro Foundation, San Francisco. 1969.

Citizen of the Day, Radio Station KABL, San Francisco. 1973.

Citizens of the Year, City of Pleasant Hill, Contra Costa County. 1974.

Commendation, Rules Committee, California State Senate. 1974.

Distinguished Participant, Corporate Executive Development Program, Chamber of Commerce of the United States, Washington, D.C. 1976.

Leadership Georgia. 1979.

Leadership Mendocino. 2009.

In addition to these volunteer positions for 50 years, I have also had professional business experience from 1984 to 2001 working in public policy healthcare,

Finally, there may also be interest in my formal education:

1. Bachelor of Arts, Political Science
University of California, Berkeley. 1965.
2. Master of Arts, Urban Studies,
Occidental College, Los Angeles. 1969.
3. Certificate, Principles of Sound Management, Center for
Professional Education, College of Business Administration
Georgia State University, Atlanta. 1990.

I look forward to serving the people of the Mendocino Coast, from Rockport, in the north, to Gualala, in the South.

I think it is important for the hospital to clearly make known (1) the smooth transition in services as its management transitions under a new operator, (2) that it identifies the demographics and healthcare needs of our citizens here on the Mendocino Coast, and then (3) it plans and then implements the medical services that these populations need.

Thank you for giving your positive consideration to my application. I look forward to speaking with you about how I can help meet the healthcare needs of the Mendocino Coast.

Best wishes,
