Re: Item 6a on Agenda 1/26/21

Ladies and Gentlemen:

I oppose your proposal to eliminate the Ag and Timber seats on the Planning Commission.

I served in the Timber Seat during 2014 to 2018. Many of the discussions of items coming before the PC effected the Ag and Timber industries and required the representatives of those seats to inform the other Commissioners how those industries operated and what the effects of their decisions might have on their operations. Elimination of the ability of this knowledge to be a part of the discussion will effectively be a dumbing down of the Commission.

If your intent is to have the PC more representative of the County, I recommend that you add a seat to represent the Cannabis Industry.

Sincerely,

A handwritten signature in black ink, appearing to read "Roger D. Krueger", with a stylized flourish at the end.

Roger D. Krueger
