RE: BOS Meeting on January 25th, 2021 at 1:30 PM

Dear Mendocino County Board of Supervisors:

We are disturbed to see the changes in the Final Draft of item 3b which removes cannabis cultivation protections from our rural residential Neighborhoods.

Agenda Item 3b would remove protections from neighborhoods:

Allows expansion of medical and recreational cannabis in neighborhoods.

Removes Setbacks for neighboring grows.

Removes requirements for recreational cannabis being grown in a structure.

We believed this issue, having been thoroughly debated by the public and the Board, had finally been settled and that we could go back to enjoying our neighborhoods like they were.

Please do not keep putting us through this ordeal. We should not have to fight to maintain the protection we've worked hard to get.

We appreciate that the Board has consistently stood up for neighborhoods and ask you to do that again.

Sincerely,

Don and Mary Doeding

Darin and Dayla Doeding
