

Dear BOS,

I live here in Laytonville. This suggestion is obviously meant for towns such ourselves **who own and enjoy being a Cannatown**. For those who wish not to be a Cannahood, then I would suggest those homeowners create an HOA, that way whomever buys property around there is aware of such laws.

We are a multi regional, 5 District county with very diverse demographics. This is for unincorporated towns, such as mine, Laytonville. We **love** being a Cannatown and believe everyone has the right to grow 12 plants in their backyard.

Thank you,  
Traci Pellar
