

We live in Potter Valley and both fires came right up to our property, but because we keep our trees trimmed it did not burn any structures. Many of our neighbors cannot afford to have tree trimmers so grants could be essential. The fire department could also use money to help protect the Valley. I urge you to drive the road into Potter Valley, you'll need to have your tires aligned that is if you don't get a flat from the potholes. Would love to see the breakdown for the 90,000. Jim & Brenda Awtrey, Main Street, Potter Valley
