

I have some questions about the attached spreadsheet sheet you are voting on tomorrow. What is the IT master plan and what are it's critical projects? And how does that benefit Potter Valley? What does Low Gaps amphitheater got to do with Potter Valleys critical fire protection needs? What is the alternate care facility and what does it's roof have to do with critical fire preparation needs in Potter and Redwood Valley? Where is Bower park? Why is there no mention of critical water needs in Potter and Redwood Valley? That certainly has fire ramifications. I have serious concerns about your planned use of this money.
