

I am asking that the Board of Supervisors please listen to your constituents, your Sheriff, your Ag community and others of expertise and vote no to expanding marijuana cultivation to 10% of any land parcels in Mendocino County.

Please do not sell our county, our people, our way of life out to big money corporations. Money is not everything. Please do not govern by greed. There is too much to lose that will never be regained.

We cannot control what is already happening here. Weed might be innocent, but the influence around it is extremely dangerous. Violent crimes, water theft, environmental damage are just a few of the problems that no one wants to suffer under. We cannot continue down this road. Please do not sell out our county. Please vote no on expansion of grows. Please listen to your voters, to your officials and experts. Please do not buy the lie of greed. Please.

Thank you

Dora Briley
