

Please end our relationship with CA Wildlife "Services". This horrific, barbaric, brutal organization serves no purpose but to destroy and eliminate our beautiful, endangered, disappearing wild mammals. We need to co-exist with these animals. We moved into their habitat. They are not "moving in" on humans. We are at fault. NOT The wildlife. So for this, we hire an organization of blood thirsty, trigger happy, deranged killers to slaughter them????!! Unbelievable. Please stop this immediately.

Thank you,

Bill Woodbridge
