

Hello,

Please vote no on allowing large grows on rangeland.

Particularly greenhouse growing is very distressing. If one was near your house you would understand how the loud generators, bright lights all night are very disturbing. Gas storage for generators is also dangerous during fire season.increased traffic and just plain ugly greenhouses everywhere is not fro mendocino county.

Also very detrimental to the enviroment as acres are leveled and water is compromised.

Besides the fact that the initial roll out of the cannabis program was and remains a total disaster. we already voted no on measure AF.

thank you for your consideration, Michelle Costa
