

Hello Good Morning,

My name is Mario DeJuan, permitted cannabis farmer and long time Mendocino resident. I'd like to thank the Planning commission and the Board of Supervisors for continuing to address and resolve these matters for the future benefit of our county and it's residents.

I'm writing again to request that any expansion of cannabis activities may also include zoned AG40 parcels of **5 ACRES** or more.

I have been diligently working on compliance and permitting for my farm for over 5 years.

I don't want to be left behind because of some arbitrary decision to allow parcel of 10 acres or more to expand but not parcels of **5 ACRES** or more, although they may be perfectly suited and properly zoned for this kind of activity.

Thanks for your consideration,

Mario
