

Hello my name is Bryan Kanthack,i will start off by saying thank you for all that you are doing. I support phase three and in full support of the 10% expansion. I moved to Laytonville in 1985. I have lived through a lot of change in this valley. From the logging mills closing to gas stations being removed.To long time residents having to move to find a job. Farmers being aloud to farm 10% would bring hundreds of jobs to our community. These legal farms are paying livable wage. People will be able to eat healthy food afford to better their life and save for the future. Mendocino needs a new industry one that can help support the up and coming generations.thank you for all your hard work. Once again I support phase 3 and 10% expantion.
